

What is Ethanol? How is ethanol made? Can I use ethanol in small engines? Can a vehicle be converted to E85? What is a flex-fuel vehicle (FFV)? **Should I be considering using FFVs for my fleet?** Is Ethanol dangerous to the environment? **Why is ethanol important?** Who can answer my questions about Ethanol? **Where does ethanol come from?** Where do I go to find out more about Ethanol? How do I know if the fuel I'm using contains ethanol? What is ethanol's carbon footprint? Can I use ethanol in my marine equipment? **Where can I find out if my vehicle is a FFV?** What is a blender pump?
If you have questions, we have answers.

ETHANOL
