Standard Procedure & Rules for Hauled in Waste Approvals

1	A Hauler Registration Form must be completed for each truck and driver that will dispose at the Authority.
2	A copy of each NJDEP decal registration card and proof of liability insurance (Declaration Page) for each truck and/or trailer in the company's fleet must be given to the ACUA. The ACUA will not accept any loads with expired NJDEP decals or no proof of insurance.
3	Prior approval must be given for industrial and holding tank wastewater before disposing in accordance with the Authority's Limitation on Wastewater Discharges located on ACUA's website.
4	The Authority does not permit the mixing of loads.
5	The ACUA has the right to inspect every truck prior to disposing.
6	A Septage Sludge manifest will be required to verify the source of the product delivered at the time of discharge. Copies of the manifest are available at the WWTP or on the Authority's website.
7	All outstanding invoices must be paid within 30 days. If the payment is not paid in full, the Authority will no longer accept waste from the hauler until the invoice is paid in full.
8	Each load shall be sampled for pH limits and must be within 5.00 and 10.00 and be charged the rate of \$0.05 per gallon (septage rate) except for scum which there is no pH value.
9	If the customer consistently delivers a product that is outside this range the ACUA reserves the right to deny service.
10	All hoses are provided by the hauler.
11	All offloading must be witnessed by and ACUA operational staff representative
12	If the hauler spills any amount of waste, they must notify the plant personnel immediately and clean up before leaving the property.
13	The Authority bills on the tank capacity of truck regardless of the actual contents.
14	Septage is accepted 24 hours a day, 7 days a week and prior notice is not required.
